Featured Speaker JASON MANWARREN

Jason has approximately 12 years of experience in raising and breeding over 50 varieties of freshwater and tropical fish. He has been featured on FOX 13 News out of Tampa, Florida on the origins and varieties of koi. In addition, he was featured on the front cover of Koi USA Magazine in the May/June Issue of 2005. He contributed an article describing his experiences with raising and selecting champion koi. Jason served as the President of the Tampa Bay Koi and Water Garden Society and later served a term as the Vice President.

For several years, Jason worked at a major tropical fish farm in Florida in the research and development department. During this time, he gained valuable knowledge about the conditioning and breeding of many types

of tropical fish found in aquariums and ponds.

Jason has served as a volunteer and presenter at numerous koi shows such as the All Florida Koi and Pond Show and the Water Garden World Koi Show. His award winning fish have claimed many trophies and declarations in categories such as Baby Grand Champion, Young Grand Champion, Best in Show, Baby Grand Champion, Best in Size, and Best in Variety. Many of these award winning koi were raised by Jason himself. Jason is currently a Co-Owner of Riptide Koi and maintains the production of most of the fish you will encounter at Riptide Koi.

Register to win a free Koi by E-mail – freekoi@riptidekoi.com
